

Brennan Rental offers top quality, dependable equipment for both short-term and long-term needs. The goal of Brennan Rental is to meet our customer's rental application with the proper type, brand and spec needed to do the job. For 60 years, we have been delivering reliable rental assets that are ready to work immediately. Our team has the experience to tailor a solution for you on a short (less than year) or long term period. One simple call or email will put our rental specialists to work and deliver the right equipment to your facility quickly and efficiently allowing you to focus on your core business. Whether your job is small or large, Brennan Rental is ready to help you worry free!

SHORT-TERM RENTAL

Brennan Rental can deliver a variety of late model forklifts, industrial batteries, chargers, attachments, aerial lifts and personnel carriers on a same day or next day basis. We offer reliable equipment at competitive rates for a day, a week or a month. If you need a rental for a temporary or seasonal increase in production, a move, inventory, emergency existing equipment breakdown...no matter the reason, let Brennan Rental deliver the right equipment on-time!

LONG-TERM RENTAL (LTR)

Put our team of professionals to work with you to increase productivity and profit for your company, and provide the flexibility you need in today's challenging business environment. Brennan Rental will work with you to tailor a program that will "right-size" your fleet...the right type, right brand, right specifications, right terms and conditions and the right quantity. We will monitor performance and provide the reports you need to track key performance indicators and costs. The benefits include:

- Comprehensive rate that typically includes new equipment and all maintenance required to maximize uptime.
- Our LTR Program is entirely different than a "true lease" arrangement that factors in a "residual value". An LTR program is a commitment for "100% up-time", including

technician response, replacement equipment if a unit goes down or if repairs cannot be made on site. Brennan Rental owns the equipment throughout its life, so if the equipment does not operate properly, or reaches the end of economic life, we replace it with an entirely different piece of equipment.

- The LTR Agreement is a "two-party" agreement between Brennan Rental and your company; **there is no "third party" financial or leasing company involved.** This allows us to work directly together if you need to change quantities, specifications, terms and conditions. We react quickly to meet your needs without involving a financial institution that focuses entirely on their "yield" and is not particularly interested in the operation of your plant and changing needs that you face.
