

## HYUNDAI DIESEL PERFORMANCE

### POWERFUL ENGINE

The high-powered engine ensures incomparable performance, durability, and fuel efficiency.

### EXCELLENT GRADEABILITY

The powerful engine provides greater acceleration, improved gradeability, and faster travel speed in the toughest terrains and on the steepest slopes.

### FULLY HYDROSTATIC POWER STEERING

The high-powered engine ensures incomparable performance, durability, and fuel efficiency.

### ADJUSTABLE SPEED LIMIT FUNCTION

The "Vehicle Max Speed Limit" function lets the operator set the maximum speed limit between 5-12 mph allowing for increased safety.

## HYUNDAI DIESEL CONVENIENCE

### ADVANCED LCD MONITOR

With the newly designed monitors, the operator can control the machine with ease, while checking speed, travel direction, and battery discharge.

### SPACIOUS OPERATOR COMPARTMENT

The newly designed cab provides more space, a wider field of view, and increased operator comfort.

### GRAMMER™ FULL SUSPENSION SEAT

An easily adjustable, ergonomic seat provides unmatched comfort and reduces operator fatigue.

### LOAD INDICATOR SYSTEM

The optional load indicator alerts the operator when the machine is overloaded.

## HYUNDAI DIESEL SERVICEABILITY

### EASY SERVICE ACCESS

The highly accessible engine compartment assures fast, efficient maintenance.

### ONBOARD DIAGNOSTICS

On-board diagnostics are easily accessible through the color LCD monitor for improved serviceability and reduced downtime and cost.

### WARRANTY

Hyundai's industry-leading 3-year / 4,000 hour warranty demonstrates Hyundai's commitment to product quality, reliability and support.

### MAINTENANCE MANAGEMENT DISPLAY

An ideal arrangement of components ensures easy access and convenience for maintenance

### WET DISC BRAKE SYSTEM

On certain models, the wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

## HYUNDAI DIESEL SAFETY

### EXCELLENT VISIBILITY

The optimized lift cylinder arrangement provides the operator with a wider view of the work environment.

### OPERATOR PRESENCE SENSING SYSTEM (OPSS)

All mast and drive movements stop functioning when the operator is not in the seat.

### REARVIEW CAMERA

A standard rearview camera provides additional visibility when backing up.

### SAFETY LAMPS & REARREFLECTORS

Halogen headlights and rear LED combination lights provide greater visibility in all conditions. Rear reflectors mounted on the counterweight enhance operator and job site safety.
