

HYUNDAI ELECTRIC PERFORMANCE

CURVE CONTROL

Curve control limits travel speed based on turning radius, reducing speed for a smooth, precise turning operation for the driver.

100% AC ZAPI CONTROL SYSTEM

The enclosed drive and pump motor with AC technology combine power, high maintenance intervals and excellent durability. The ZF transmission converts the drive engine's power to any direction the driver requires.

ANTI ROLLBACK SYSTEM

Anti Roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

ADJUSTABLE SPEED LIMIT FUNCTION

The gradeability ranges from 13%-18% with a max speed of 8 miles per hour.

HYUNDAI ELECTRIC CONVENIENCE

ADVANCED 3.5 INCH LCD MONITOR

The LCD monitor with 3.2 inch graphic smart display allows the operator to easily and efficiently control the machine. The monitor provides information about speed & accelerator level, steer angle & travel direction, battery discharge indicator, hour meter & working mode.

GRAMMER™ FULL SUSPENSION SEAT

An easily adjustable ergonomic seat provides unmatched comfort and reduces operator fatigue. Energy locking retractor (ELR) seat belt, Heater and headrest (optional) & Adjustable armrests

ADJUSTABLE STEERING WHEEL

To achieve a comfortable drive position, the angle of the steering column can easily be adjusted through a lever on the right-hand side of the steering column.

COMPACT TURNING RADIUS

The combination of 3-wheel design and rear wheel drive offers central pivot turning. This allows the driver to work in very confined spaces.

HYUNDAI ELECTRIC SERVICEABILITY

EASY BATTERY REPLACEMENT

The battery compartment is equipped with a side battery removal assembly for easy removal and replacement.

BRAKE OIL RESERVOIR & LEVEL SENSOR

The enhanced brake oil reservoir, located in the upper left dash, is equipped with an electronic level sensor and easily visible through the monitor.

EASY TO MAINTAIN CONTROLLER

The AC controller is strategically placed for quick access. No tools required!

WET DISK BRAKE SYSTEM

This maintenance free system allows for less heat development and is fully enclosed to protect from water and dust, leading to less wear on components.

HYUNDAI ELECTRIC SAFETY

OPERATOR PRESENCE SENSING SYSTEM (OPSS)

All mast and drive movements stop functioning when the operator is not in the seat.

STRONG OVERHEAD GUARD

Exceeding CEE and ANSI regulations, the overhead guard offers great protection combined with excellent all round visibility.

PANORAMIC MIRROR

The panoramic mirror expands the driver's view when backing up.

EXCELLENT VISIBILITY

Optimized lift cylinder arrangement provides operator with wider visibility. The panoramic mirror expands the driver's view when backing up.
