Commercial and Industrial Vehicles Since 1949

TAYLOR DUNN TOWING VEHICLES

Taylor-Dunn offers a wide variety of industrial and ground-support tow tractors to meet demanding requirements in the factory and warehouse. Not only are they less expensive than your traditional fork lift, they are also more versatile in handling all your marketplace item picking needs. Their tow tractors are engineered and manufactured to provide maneuverable, rugged, safe, and cost-effective service for demanding applications. Offered in gas, electric, diesel, and LPG configurations, Taylor-Dunn's tow tractors are the right solution for towing loads of up to 168,000 lbs.

FOUR REASONS WHY TRAILERS MAKE SENSE:

- Trains of trailers allow a single operator to move greater quantities of material at once.
- If there are changes in your plant layout, trailer trains take it all in stride.
- Trailer trains save time and labor.
- Wear and tear on forklifts and other expensive equipment is minimized.
